# TO BE OR NOT TO BE A FIDUCIARY

### What Is ERISA?

### **ERISA History**

- The Employee Retirement Income Securities Act (ERISA) was introduced and passed by the House, Senate, and later signed by the President in 1974
- ERISA is a federal law that establishes minimum standards for retirement plans and provides for extensive rules on the federal income tax effects of transactions associated with employee benefit plans
- ERISA was enacted to protect the interests of employee benefit plan participants and their beneficiaries
- Responsibility for the interpretation and enforcement of ERISA is divided among the Department of Labor, the Department of the Treasury (Internal Revenue Service), and the Pension Benefit Guaranty Corporation

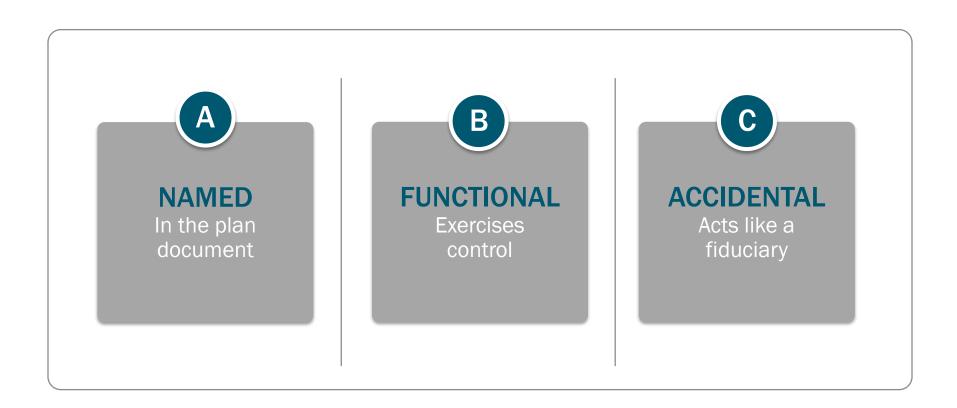

President Gerald Ford signing ERISA into law on September 2, 1974

### Sources Of Fiduciary Duties

- √ Federal law ERISA
- ✓ State law (e.g., Florida)
  - Best Practice is to apply ERISA fiduciary responsibility and fiduciary governance principles to the management of Florida's government sponsored retirement plans. §112.625(1) F.S.
  - "Each retirement system or plan shall have one or more named fiduciaries with authority to control and manage the administration and operation of the retirement system or plan." §112.656 (2) F.S.
- ✓ Organizational charter/specific delegations (i.e. GFOA Best Practices\*)
  - "Many governments offer a deferred compensation plan to their employees. In operating these plans, governments act as fiduciaries. Because deferred compensation plans shift investment risk to the plan participant, GFOA recommends that governments provide employee education about the management of the investment risk".
  - "In carrying out their responsibilities as fiduciaries, plan sponsors make decisions in the best interests of plan participants and beneficiaries. In making these decisions, it is assumed that plan sponsors have knowledge about all fees and expenses charged to the plan and participants while ensuring that these costs are reasonable. It is also assumed that plan sponsors are disclosing to plan participants adequate and accurate information about the fees and expenses that affect their account balances".
- ✓ General fiduciary duty

### How Does Someone Become A Fiduciary?

### NAGDCA Fiduciary Responsibility Brochure & Checklist

National Association of Government Defined Contribution Administrators, Inc.

### FIDUCIARY RESPONSIBILITY

### INTRODUCTION

Fiduciaries of defined contribution (DC) plans have come under increasing scrutiny in recent years, in part due to participant lawsuits filed against plan sponsors and the resulting media attention. The Internal Revenue Service (IRS) and Department of Labor (DOL) have also increased the number of plans they audit each year. Because significant consequences can result from a fiduciary breach, you are encouraged to focus on your fiduciary responsibilities and understand the standards of conduct that apply to every plan-related decision you make.

Under a participant-directed DC plan, much of the control and responsibility for participant investment outcomes is substantially shifted from the plan sponsor to the participant. The plan sponsor, however, remains fully and solely responsible for maintaining the plan, meeting regulatory requirements, educating participants, prudently selecting and monitoring both investment options and service providers, and controlling plan expenses.

NAGDCA created this Fiduciary Responsibility Brochure to guide you, a fiduciary of a governmental participant-

### THE PLAN FIDUCIARY

Fiduciary Capacity - A person acts in a fiduciary capacity when he or she handles money or property for the benefit of another. A governmental employer offering a defined contribution (DC) plan to its employees, herein referred to as the plan sponsor, handles money for the benefit of plan participants. Specifically, Internal Revenue Code §457(g) requires governmental 457(b) plan assets and income to be held in trust, or in custodial accounts or annuity contracts described in §401(f), for the exclusive benefit of participants and their beneficiaries. The obligation to make every plan-related decision prudently and with only the best interests of the plan participants in mind means it is essential for you to know and understand your fiduciary responsibilities.

**Plan Fiduciaries** - A fiduciary is a legal term that can be simply defined as anyone who:

- Exercises discretionary authority or control over plan assets, and/or
- Exercises discretionary authority or responsibility in the administration or management of the plan, and/or
- Gives or renders investment advice

### **APPENDIX A**

### Managing Risk: New Regulations

### DOL Guidance on Managing Cybersecurity Risk

On April 14, 2021, the DOL issued guidance on maintaining cybersecurity, noting that as of 2018 there were more than 34 million employees with a pension plan and 106 million participants in a defined contribution plan with combined assets of roughly \$9.3 trillion.

The DOL notes three areas:

Cybersecurity program best practices for recordkeepers and service providers

Tips for plan sponsors on selecting a service provider

General online security tips

List of recommended steps are found on DOL's site: <a href="https://www.dol.gov/sites/dolgov/files/ebsa/key-topics/retirement-benefits/cybersecurity/best-practices.pdf">https://www.dol.gov/sites/dolgov/files/ebsa/key-topics/retirement-benefits/cybersecurity/best-practices.pdf</a>

### Themes In DC Litigation

1

### Cyber & Fraud Risk

Member accounts are being hacked and unauthorized distributions are occurring

- Issue RFI on cyber and fraud procedures and data protection
- Create a Fraud Policy Statement for Committee review and approval
- Communicate to participants how to monitor and steps to follow if fraud occurs
- Review service contracts and insurance coverage levels

2

### Investment Fees & Revenue Sharing

Collective investment trusts and separate accounts are being overlooked when evaluating lowest cost share classes

- Review funds for lowest share class of mutual funds
- Explore if lower cost nonmutual fund investments are available

3

### **Cross-sell With Plan Data**

Service providers use plan data to cross sell non-plan related services

- Review service contract for cross-sell language and who owns the data
- Restrict cross-selling to require member consent
- Request recordkeeper to report new IRAs and other service lines being opened by participants and the revenue received

4

### **QDIA Selection**

QDIA is proprietary to the recordkeeper or was selected without proper evaluation and monitoring

- Follow DOL guidelines to select and monitor QDIAs
- Use plan data to help determine a "to or through" glidepath
- Monitor/educate participants using 2+ target date funds

### State of Retirement Plan Litigation

Total Damages (2010 - 2022)

\$1,110,434,468

43%

of cases settled or resolved at trial

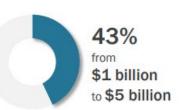

11%

were dismissed Case filings continue to increase: 117 cases in 2020

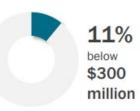

Prior peak was 75 in 2016

### CASES BY SIZE:

\*Data sourced from Lex Machina's 2010 - 2022 Graph of ERISA claims

At least

20%

of cases are more costly to defend than to settle \$5 million to obtain a motion to dismiss

Hospitals are the largest target

### **Government Plan Trends**

- Continued pension reform and other political pressures
- Increased plan governance by formal plan committees
- Fee disclosure rules
- Public scrutiny and lawsuits
- Advances in recordkeeping technology
- Focus on retirement readiness & financial wellness
- Vendor consolidation multi to single provider
- Industry consolidation as result of M&A

### **Vendor & Plan Consolidation**

### Why consider consolidation?

- Excessive fees
- Too many investment options
- Proprietary offerings
- Lack of oversight and ongoing due diligence

### **Benefits of Consolidation:**

- Understand and reduce fees: investment expenses, administration, etc.
- Reduce employee confusion
- Improve employee's retirement planning experience
- Update and revisit plan documents
- Administration efficiencies
- Simplifies oversight and fiduciary responsibility

### Plan Benchmarking: Evaluating Costs

### Possible fees within your 401(a)/DC or 457(b) Plan:

- Sub-transfer Agency (sub-TA) fees
- 12(b)-1 fees
- Shareholder servicing fees
- Wrap fees
- Other revenue sharing or SEC 28(e) "soft dollars"
- Administrative fees
